

# RESTORATION PROJECT

Old classics, with a new twist

ELECTRONIC PRESS KIT

ABOUT

# WHO WE ARE

Restoration Project is a guitar-based mashups act from North Oxfordshire. We take the songs you know and love — classics from across the decades — and rebuild them from the ground up, blending genres, swapping styles, and making them sound like you've never heard them before.

From Madonna to Taylor Swift, Kate Bush to Pulp and The Beatles to Guns n Roses — we take hits from across the decades, mash them together and give them a fresh new sound. If you're looking for something different for your event, you've found it.

LIVE

# IN ACTION

## THE ACT

# WHAT WE DO

We take well-known songs and completely reimagine them — swapping genres, blending tracks together, and performing them live as a full band. Every song is a surprise. Think classic hits rebuilt from the ground up with unexpected twists.
